HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from that rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to the style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

The President has appointed John T. Harper Collector of Internal Revenue for the Eighth District of Illinois.

Thos. Miller, of Ohio, has been appointed agent of the Sacs and Foxes.

Martin Stubbins, of Kansas, has been appointed agent of the Kaw Indians.

Jas T Cook, of Colorado, and brother of a recently elected legislator at Washington City, was to day appointed to a first class clerkship in the Internal Revenue office.

The President has decided upon appointing eight candidates at large to West Point Academy, which with two heretofore named completes the ten constituting this quota. The Secretary of War is now preparing commissions for the new appointees. The other appointments, one from each Congressional District, will also be announced in a few days. These candidates will not enter the Academy until Summer.

New York Items.

NEW YORK, June 23.—A Convention of delegates from the National Banks of the country assembled to day at St. Nicholas Hotel, J. G. Henry, of Buffalo, temporary Chairman; Theodore Pomeroy, of Auburn, permanent President. A committee of 75 was appointed to take such action as may be necessary for reforming the banking laws, securing sound legislation on banking and all matters of material interest to the public and to National Banks. The Convention then adjourned. Fifteen States were represented.

The Cubans who have been arrested were brought before Commissioner Osborn to-day. He having received information that they had been indicted by the Grand Jury for the violation of the neutrality law, declared their cases at an end before him. The defendants were again arrested under the new indictment, by Marshal Barlow, but were bailed to appear for trial.

A meeting of the Commercial Travelers was held to-day, at which Secretary Anderson stated that the receipts of subscriptions for defraying the expenses of procuring the adoption of license laws amounts to $464. Wood, Chairman of the Executive Committee of the Chicago organization, stated that he had succeeded in getting the law repealed there, and that towns and villages in Illinois had followed the example. A resolution passed appointing as a committee, Richard, Wilson and Agurman, to employ counsel in reference to their grievances. A Committee on Permanent Organization was appointed.

August Belmont has sailed from Cuba for Europe.

Ohio Republican Convention.

COLUMBUS, Ohio, June 22.—The Republican State Convention organized permanently at 2 o'clock P. M. John Sherman was made President. The nominations are as follows: for Governor, B. Hayes; Lieut. Governor, J. C. Lee; Treasurer, S. S. Warner; Supreme Judge, Luther Jay; Attorney General, F. B. Bond, of Morgan county. Board of Public Works, Richard A. Porter.

The first resolution expresses satisfaction with Grant and the Republican party, and with the foreign and domestic policy of his administration, and pledges a cordial support to his measures inaugurated to secure conciliation, economy and justice at home, and command confidence and respect abroad.

The second resolution hails with pride Grant's declaration in his inaugural, that while he will on all subjects have a policy to recommend to Congress, he will have none to enforce against the will of the people.

The third says the abolition of slavery was a necessary consequence of the war, and if the reconstruction measures of Congress are well adhered to, they will affect the reconstruction of the Southern States and secure the blessings of liberty and free government. It also favors the ratification of the fifteenth amendment as the completion of these measures.

The fourth denounces the reckless expenditure of public money by the late Democratic legislature and its failure to enact needful financial measures, hostility to developement and literary institutions, its attempt to disfranchise disabled soldiers and citizens of the State, all of which acts show the Democratic party to be unworthy of the confidence of the honest people.

The fifth favors the establishment of Soldiers' Orphans' Homes in Ohio, as an act of justice, and recognition of the patriotic services of their fathers.

Governor Hayes made a speech which was enthusiastically cheered.

Pennsylvania Republican Convention.

PHILADELPHIA, June 23.—The Republican State Convention was called to order by G. A. Grow, Chairman of the State Central Committee, who congratulated the Convention on the unanimity which pervaded. Henry Souther was made temporary chairman. Geo Geary was renominated on the 1st ballot. Judge Williams was renominated for Judge of the Supreme Court on the 1st ballot.

The Crops, &c.

The Agricultural Department report for May and June, show a high average condition of the wheat, and good prospects of abundant crops if no casualties occur before or after the harvest. Rye, barley and other grains are generally in fine condition and show an increase.

Peaches have made their appearance in market at various prices.

The crop reports from Arkansas are very encouraging. The amount of wheat harvested is largely in excess of that of any previous year.

The Board of Aldermen appointed a Committee this afternoon to investigate the charges made by Mayor Watterman.

Miscellaneous.

LOUISVILLE, June 2.—A large party, consisting principally of members of the Cincinnati press, left this forenoon for Mammoth cave.

Gen Hallieck and staff left here last evening on a tour of inspection over the division of the South. The will extend the journey to New Orleans before returning.

CINCINNATI, June 23.—B. G. Thomas, owner of the horse "Herseog" proposes to have his horse run the fastest time ever made, on condition that if he succeeds he shall receive $5,000 if he fails, nothing.

RICHMOND, June 23.—Chief Justice Chase, by invitation, visited the United States Tobacco Exchange to-day, and was enthusiastically received. He was introduced and said a few words expressing the hope that Virginia will soon regain her former prosperity.

BUFFALO, June 22.—The strike among the trackmen on the first division of the Atlantic and Great Western railroad has ended. The strikers resumed work at the old rates.

HARTFORD, Conn., June 23.—The Senate to-day defeated the Hartford railroad bill, to make a railroad between New Haven and New York, coupling with the present road.

The House defeated the bill repealing the present usury law by 77 to 34.

BRANTFORD, June 23.—A fire last night destroyed a large portion of the town loss $100,000.

JACKSON, June 23.—The Yerger trial is progressing slowly. Witnesses for the defence examined prove that Yerger gives evidence of insanity.

The Conservative Republican Convention met to-day and organized. The attendance was large. Resolutions were adopted favoring reconstruction on the Congressional plan; favoring universal suffrage and universal amnesty, and indorsing the administration of Grant. The convention is harmonious and successful.

Cuban News.

Cuban affairs have not been the subject of consultation, although occasionally this is the topic of conversation merely in the Cabinet; nor, according to the present aspect, is it possible that any official action will soon be taken in regard to the affairs of that island. Government has no information to show that the opposing forces in Cuba ever met in the open field, but what little fighting has been done amounts to nothing more than skirmishing. Operations have been confined to a few local points, with no marked political results. The Cubans have not yet succeeded in establishing themselves in a single spot; therefore, as no case is presented which calls for the recognition of the belligerents, no member of the Cabinet has expressed a desire for or hinted at action in that direction. It is no secret that the Spanish Minister has been informed that although the Government and people of this country sympathize with the Cubans, the neutrality laws will be enforced, and as far as possible, the Government will execute them.

The Spanish Minister is placed in direct communication with U. S. Attorneys and Marshals, and so can furnish them with information by proof relative to secret military operations.

The recent arrests in New York were made on information furnished to Federal officers, thereupon by the Spanish Minister. His cause of action was owing to the open boasting by the Cubans of their success in landing men and arms on the island. Government sold surplus arms to all parties without discrimination, asking no questions as to their future use.

It has been ascertained from an official source that there is no disagreement between Senator Sumner and Secretary Fish relative to the instructions of Minister Motley, which the former has seen.

CHICAGO, June 23.—Dr. E. O. Haven, President of the Michigan University, was to-day elected President of the Northwestern University at Evanston, one of the suburbs of Chicago.

How Rufus Choate Gave up the French Language in Disgust.—The New York *Times*, in notice of M. Marcell's clever work on [illegible] relates this amusing anecdote of Rufus Choate:

There are few who have made experiment of trying to understand the current conversation, in a foreign capital, however well acquainted they may have been with the language of books who will not find an ample confirmation of M. Marcell's principles in their own experience. A curious illustration of this is related by a gentleman who accompanied the late Rufus Choate on a visit to Europe. The eminent lawyer as is well known, was not less distinguished for his acquaintance with the modern languages and literature than for his powers over a jury. On arriving at Geneva the two friends together formed a plan for an excursion to Mont Blanc. The morning appointed for the expedition Mr. Choate was not ready on spot. His companion on searching him out, suggested that it was time to start for Mont Blanc. "Mont Blanc! Mont Blanc!" vociferated Mr. Choate, "Mont Blanc be hanged, I am for Mont Bunker Hill. I will stay no longer in this infernal land. Here am I, who have been studying French for a life-time, and know it as well as the whole French Academy and cannot even understand the servant who replies to the question whether he has blackened my boots." And in profound disgust, the brilliant rhetorician made the best of his way to Paris, resolved to return without delay to his miraculous use of the vernacular in Massachusetts.

A Diamond Test.—The more valuable an article is the more it is counterfeited, and the greater the perfection to which falsification is carried. The diamond has been so successfully imitated that he must be an expert indeed who can tell the false from the true. It by no means follows that because a man deals in jewels his honesty must be of the first water, and the fact of a purchaser having paid for a diamond is not always proof that he has obtained one. There are known tests of genuineness, it is true, but they are chiefly optical, and require apparatus and skill to make them. A method which any one can apply, or easily get applied, has been a desideratum; but the want exists no longer. If you have a doubtful stone put it, or cause it to be put into a [illegible] or platinum cup, with some powdered fluor spar, and a little oil of vitriol; warm the vessel over some powdered charcoal, in a fire-place, or wherever there is a strong draught to carry away the noxious vapors that will be copiously evolved. When these vapors have ceased rising, let the whole cool, and then stir the mixture with a glass rod to fish out the diamond. If you find it intact it is a genuine stone; but if it is false it will be corroded by the hydrofluoric acid that has been generated around it. A small "paste" diamond would disappear altogether under the treatment. They who profit by this recipe have to thank Signor Massimo Levi, an Italian chemist.

Destruction of Currency Plates.—In accordance with the orders of Secretary Boutwell, all the currency, electrotype and stereotype and copper plates were a few days ago melted in the Treasury building furnaces. The steel plates could not there be so easily destroyed, and hence they were to-day removed to the Navy Yard for that purpose. The committee having the matter in charge, Senator Thayer being at the head of it, had been employed since Monday last in examining, recording and [illegible] the plates, dies, rolls and bed pieces, numbering in all about 2,900. They were packed in 40 boxes, weighing 16,000 pounds. Each box was securely fastened with iron bands. Three boxes bore the seals of the respectively, to the Treasurer and the Register of the Treasury, and the Secretary of the Treasury. The boxes were then conveyed to the furnaces in the presence of [illegible] several of the officers on duty there. The [illegible] were opened and the plates placed on the [illegible] an hour's time [illegible] over $1 bills of 1869 [illegible] were soon cooled into solid pieces of steel.

Nine Crabs at One Sitting.—A very curious [illegible] is related in the English journals, [illegible] how Mr. Barnaby Jo[illegible] was outwitted by a [illegible] of an English landlord. Upon [illegible] in London he contracted at a very [illegible] rent for a residence in Portland Place for a period of five years. The agent was [illegible] enough to enter into the lease a covenant for a large compensation in the case the Major [illegible] should find it convenient to leave England before the period had expired. Under this stipulation he was compelled, before leaving England, to pay a forfeit of more than two £2,000. Whether this sum may properly be included in the [illegible] indemnity and restitution demanded is a question for the diplomatists.

Rather Pointed.—The San Francisco *Bulletin* has the following pertinent little reference to Senator Sprague of Rhode Island. It is very much to the point:

"Mr. Sprague—worth about fifteen millions, if rumor is correct, and certainly the richest man in New England—complains to audiences of working men that wealth is too much concentrated. When will he begin to divide? Peabody, who makes no complaint of this kind, has been liberally distributing his wealth for many years, aiding with modest greatness a variety of noble objects, and bettering the condition of thousands of people. But Peabody is not a politician. Who ever heard of Sprague's benefactions?

The [illegible] newly-devised streets of Paris, it is stated, yield an income of $2,000 per annum to an ingenious individual of that city. He collects the mud from the streets, which near the houses in course of construction contains so much [illegible] dust; he then places it in large tubs, passes the deposit through [illegible] allows it to form a concrete, which he then forms into the long yellow bricks for knife-cleaning. The material costs nothing, the labor is insignificant, but the bricks sell for twenty cents each.

THE CAPITAL STOCK

—OF—

THE PACIFIC
MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA.

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates required for traveling East or in Europe.

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash.

The rate at which we have been settling money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent., compounded annually for ten years, is $6,962,167 27, here at 12 per cent, for four years, and 10 per cent for six, compounded monthly, $25,690,900 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO

DR. HARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR SMITH purchased the extensive lot corner of Quincy and California streets with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and is by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhœa or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhœa, Stiff Joints, Ohk Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their farms, their mines, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks Board, Room and Treatment in all ordinary cases.

N. B.—All sufferers from contagious diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty and have treated a great number of females both in the Institute and in their private residences in the cities Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvature of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and facility with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, is what attracts declaring that there is not one form of disease which is of this coast but that we have successfully treated. From the Atlantic States and Europe many have come to us and been treated, we have not one single regret to Husband or Wife. The time and trouble they expended in travelling to MIDDLEMAN, for they not only get well, but learn how.

Terms for Ladies $2 a week or $10 for six weeks Board, Room and Treatment.

DR. SMITH gives FREE Lectures to the patients every Wednesday evening, and to the Ladies' Hygienic Society the first Wednesday in each month.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

IT CURES in most skilful and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the two months in which it has been brought into public notice. The proprietor is fully convinced of its INFALLIBILITY, that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

JOHN BULL ON THE PACIFIC RAILROAD.—An English paper, speaking of the completion of the Pacific Railroad, says: "Not two years ago the engineers modestly asked Congress to open the line in 1870, and lo! it is finished already; and, still more strange to say, it appears likely to be kept well within the estimated cost. Think of these things, O British shareholder, whose profits go to pay the interest; think of these things, O British capitalist, who cannot see the Thames embankment become of all the extra years required to finish the vast passages of the Metropolitan District Railway; think upon them, O British patriot, jealous for your country's fame as the land of Brunel, Stephenson and Watt! Think, too, upon that other work, that meeting of the waters in the cross sands of the Suez, and ask where now is France's claim to lead the nations along the golden roads of peace? Why was it left to France to reap the glory of that great work? Why have we not combined with her in linking the oceans together, or France in carrying water to the far from desert plains of India. For shame's sake, let us do *something*. Let us pierce a canal through Ireland, or bridge the Channel, or join British Columbia to the Canadas, or irrigate India on a royal scale; only let us do something to be proud of! If the clinking of money bags lulls us to sleep, let us beware lest we fail to wake up again.

ANIMAL OUTRAGE.—We have learned some particulars of a brutal outrage committed upon a Mrs. Wilcox, living some four or five miles south of this city near Camp No. 6, on the West Side Railroad. George Oakes, who is in charge of the camp, went to the house of Mr. Wilcox while the latter was absent, and made insulting propositions to Mrs. Wilcox. She resented the proposals and ordered him from the house. Seeing the brute was determined in his purpose, she attempted to escape; but Oakes caught her and despite her struggles and screams, accomplished his fiendish intentions, and then went back to his camp. Upon the return of Mr. Wilcox his wife hastily related him of what had happened. Mr. W. at once sent his wife to her father's near by and came to the city for a warrant and officer to arrest Oakes. A short time before the officer arrived at the camp, however, Oakes probably suspecting what was going on, left and could not be found. The neighbors hearing of the affair, turned out and assisted all night in the search for him, but up to yesterday morning, he had not been caught. Great excitement prevails among the neighbors, who are all out, engaged in hunting him down. If caught he will probably suffer summary punishment for his dastardly crime.

ARRIVAL OF THE Geo. S. WRIGHT.—The steamer *Geo. S. Wright*, Rogers, Commander, arrived at 3 o'clock yesterday morning.

She sailed Left Victoria, Tuesday, June 22; arrived at Astoria, Wednesday, June 23d, at 12 A. M; passed the Heads off Shoalwater Bay, Wednesday, June 23d, 9 A. M., bound for Victoria; arrived at Portland, Thursday, June 24th, at 3 A. M.

Passengers—Mrs B F Dennison, H Rhodes, J Rabitt, A Tullp, Col Lamon, M Mann, J Wilson, M Fanshaw, S Peel, C Levi, Mr Montague, H Hardin, S Lindsley, B Ward.

Mason's—Cargo Coals to Geo. Hood, Astoria, 1 case ——, Leon Vial, Portland; 8 cases polish, H W R; Portland: 1 chest tools, D G Hood, Portland; 1 pkge rope, Order, Portland.

CIRCUIT COURT—UPTON JUDGE.—The following were the proceedings in this court yesterday:

Henry L. Pittock vs J. P. O. Lowndsale et al; decree to quiet title to plaintiff of certain real estate.

Jacob H. Zeller vs J. P. O Lowndsale et al; similar decree.

G. G. H. Brooke vs J. P. O. Lowndsale et al; similar decree.

E. Goldsmith and Jos. Teal vs J. P. O. Lowndsale et al; similar decree.

State of Oregon vs Andrew Derringer; plea of guilty of larceny; sentenced to county jail for sixty days

Lyman Williams vs Edgar Poppleton; action for damages; testimony heard this morning, the case will be sent up and submitted to the jury.

HAS NOT RUN AWAY.—The *Commercial* reported Wednesday evening that Jack Brushard, who was released on bail a day or two since, had skoped for parts unknown. The *Herald* of yesterday morning copied the item, and added, "Thereby hangs a tale." The fact is, Brushard has not run away; but is confined to his room with a sore foot. The *Commercial* takes back its former statement. What will the *Herald* do with the *tail* which they hangs!

LITHOGRAPH PICTURE OF EUGENE CITY.—We have received from Mr. James F. Brown, a finely executed lithograph of Eugene City and surroundings, from a photograph by P. F. Castleman. Mr. B says he has a supply of them which he will mail, postage paid, to any part of the United States, for $2 50. The execution is all modern, the lithographing being done at San Francisco.

HORSE TRAINING.—Mr. P. F. Castleman, pursuant to his advertisement, drove a horse to buggy, yesterday, through several of our streets, without the use of reins. The horse, evidently well trained, was readily obedient to the motions of the whip, and turned, stopped, backed or went ahead, according to the position in which the whip was held, without a word from the driver. The whole affair to the performance were numerous.

MINING INSTRUMENTS.—H L. Hoyt, Deputy Collector, has received instruments and leaden seals for sealing goods which are to be carried through foreign ports to American ports. The law requires that all such goods shall be sealed by passing wires around each package through holes in corner or margin, and the ends securely fastened in a leaden seal.

FURNITURE.—We invite attention to the advertisement of M Hurgren & Shindler. Their display of fancy goods is really very fine. Their stock is one of the most attractive and elegant ever brought to this city, or any other north of San Francisco

U. S. DISTRICT COURT.—This Court will meet this morning at ten o'clock, when a decision will be announced in the case of Briscoe vs. Hinman, action to recover penalties.

SALE OF STATUARY AND MARBLE ORNAMENTS will take place at Mr. Richardson's auction sales rooms, at 10 o'clock this morning. All articles of Italian marble and, rich, rare and beautiful.

PERSONAL.—Commodore Watson is again upon a visit to our city.

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

"LIFE SAVING AND LOAN BANK."—The people of the city patronize the ORGAN DISPENSARY in order to save money and prolong a loan of longer life by using our FRESH PURE and RELIABLE remedies, which are daily dispensed and preferred by the MOST RESPECTABLE and TALENTED PHYSICIANS in this city. Every body takes a pull in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other *nicknacks*, too numerous to mention. People say it is a pleasure to get sick and be cured at the Oregon Dispensary

LORYEA & KALLENBERG,
73 First street, Portland

CHARGES to New York.—Mr Beth Luelling, of Milwaukie, shipped by the steamer *Pacific*, a box of cherries to be sent from San Francisco, by the railroad, to New York, as an experimental shipment. They are seedlings from the pit of a variety with a French name, which we failed to get hold of. Mr Luelling calls them the "Black Republicans." They are good keepers and he believes they will arrive at New York in good condition. If so, they will be the first Oregon cherries ever eat by New Yorkers at home, and the fame of them, as well as the cherries will be in everybody's mouth.

RICH ORE.—Mr Blossom, of Idaho, formerly of this city, exhibited in our office a day or two since, some very rich silver ore taken from Atlanta mine, in the Yuba District—a comparatively new camp, situated about one hundred miles East of Boise. Specimens like the one shown us, assay ninety-five per cent of silver. Mr Blossom also had some specimens from other ledges, containing both gold and silver in large per cent. He is decidedly of the opinion that the Yuba District is destined, within a year or two, to become one of the richest on the coast.

THE W. T. EARTHQUAKE.—Mr A G White, who comes from the Sound, reports that at Pumphrey's Landing, he was told that one day after the earthquake was felt on the Sound, the Indians came in and reported that the shock was severe at Mt Rainier and caused a heavy land slide, which was confirmed by the fact that the waters of the Cowlitz were very muddy on Monday and were still rily on Wednesday, when Mr. White was there.

THE WEST.

A paper describing the ascent of Mount Baker, in 1868, by E. T. Coleman, will shortly appear in *Harper's Magazine*.

The Victoria *Colonist*, speaking of a funeral discourse preached by Rev. Dr Hayman, in Christ Church, describes it as a "most eloquent discourse, from the 21st verse of 3d *Philistines*."

The U. S. steamer *Saginaw* is to sail shortly from San Francisco for a cruise to Alaska and our northern ports. She is much better suited for that cruise than any other vessel of war on this coast.

Among the passengers who arrived in Sacramento from the East a few days ago, by the Central Pacific Railroad, was Gen. Arthur Doubleday, of the United States Army, who has been detailed for service in San Francisco.

The new Governor of British Columbia is Anthony Musgrave. A Victoria paper says his appointment was decided upon at the Colonial office some months ago, and it seems that the late Mr Seymour was aware of the intention.

Judson, of Port Townsend: Judson, of Pierce county, and Judson, of Thurston county, for Prosecuting Attorney, Sheriff and Probate Judge, were all beaten in the late election. An Olympia paper thinks it clear that the Judsons are not popular.

A Victoria paper says a great change is about to take place in British Columbia. With one sudden movement, it will pass from the condition of a Crown Colony, governed from Downing street, to that of a self-governing Province of the Dominion of Canada.

A noted Democratic politician named Weller is to deliver the Fourth of July oration in San Francisco. He writes a letter to the *Bulletin* in which he says he does not want negroes excluded from participation in the celebration. That sort of Democracy would not pass muster in Oregon.

The Olympia *Tribune* says: The Smithsonian Institute is about to publish a history of the Makah Indians, written by James G. Swan, Esq., of Port Townsend. About half of the manuscript has been placed in the hands of the printer; the rest was undergoing revision at last advices.

The *Unionist* says: The *Herald* has been blowing about the Democratic triumph at the Corvallis election. The way the matter was, there were two tickets in the field; one temperance and one whisky ticket. The whisky ticket was elected, hence the *Herald* claims a Democratic victory.

GENERAL NEWS ITEMS.

A correspondent of the New York *Sun* says that Jacob M. Howard, U. S. Senator from Michigan, gave the great Republican party its name.

There are more papers published in San Francisco, with its 130,000 inhabitants, than there are in London with its 3,000,000 souls. It seems remarkable, but is nevertheless true.

Senator Nye, of Nevada, "in the name of God and all the people of the Pacific slope," has invited Senator Sherman to make a trip over the Pacific Railroad this summer.

We read that United States Treasurer Spinner sleeps with his bed jammed up against the door of the principal vault in the Treasury building. How fearful must be the character of his dream.!

Andrew Johnson, in a speech at Gallatin, Tenn, June 8th, said that "Both races must be enfranchised before there can be peace, security and freedom." He declared that he was not seeking for place or emolument, and "only asked the boon of his fellow countrymen's respect and confidence."

The humorous papers of Denmark are publishing caricatures of Uncle Sam in the garb of a penniless confidence man, who buys everything and then refuses to pay for the goods. All on account of the refusal of the United States to consummate the bargain in regard to the Island of St. Thomas.

Attorney General West, of Ohio, has given an opinion that the visible admixture law passed by the last Legislature of that State, does not in any manner affect the right of citizens of preponderating Caucasian blood to vote; that it changes the penalties for illegal voting, but does not change the suffrage qualification.

There seems to be no doubt now of the triumphant election of Walker, a Northern "carpet bagger," in Virginia, and of general acquiescence in universal suffrage in that State. So far have the leading rebels themselves gone in the new policy that some have even proposed to choose to the principal offices Northern men of character and fitness, after only one day's residence.

GRANT, SHERMAN, BORIE.—George Alfred Townsend's sketches of three distinguished individuals as they appeared at Arlington, Va., on Decoration Day, are more graphic than flattering. "Grant is growing monstrously stout, and his head is very nearly a perfect cube. He wears a stovepipe hat altogether in these days, keeps clean shaven, and his garments are more becoming than his military uniform. Gen. Sherman gets thinner while Grant grows heavier. Sherman's nose is perpetually sunburnt. At the graveyard on Saturday, he was merry as a golden beaked parrot. Mr. Borie is the Admiral of the Blue, and First Shipper of Reedy Island. 'I looked at him on Saturday,' writes a friend from Philadelphia, 'as he stood among the graves, and they seemed much younger than he.'"

Judge Odell, of Massachusetts, decided, in the case of Ward vs. Huntress, that calling a man a "damned Englishman" is not swearing, within the meaning of the statutes, so long as the *Alabama* claims remain unsettled.

The City Government.

On the first of July the City Government will pass into the hands of the Radicals. For the last two years it has been under Democratic rule. And those two years have been the most auspicious during its whole existence. The Democrats found the city largely in debt, they found no fixed system of management or improvement. Our streets were a disgrace to the city. They were nearly ten years behind the times. The Democratic Council immediately set to work retrenching, economising, systematising and improving. The result of their labors has been almost marvellous. Enormous drains on the treasury were stopped; the city government became thorough and economical; street improvements commenced contemporaneous with their control of city affairs, and perhaps no city in the United States, within so short a period of time and with no greater population, can show the advances such as Portland has made during the two years past. They now turn over the government systematised, economical and progressive, into the hands of their political opponents. Now we shall see, if after being placed in such running condition, they have the tact to keep it going forward in the same creditable style.—*Herald.*

There is brass enough in the above to set the writer up in the foundry business. The debt of the city when the Democrats took possession two years ago was much smaller than it was three years prior to that time, when the Republicans received the city government from the Democrats. The debt was therefore actually reduced while the Republicans controlled the city. Prior to 1864, when the Republicans came into power, the city government was in utter chaos. There was no system anywhere. The credit of the city was dishonored; its papers and accounts were in such confusion that it was impossible to adjust them; its streets were impassable and there was no law whereby any fixed system of improvements could be commenced and enforced. The Republicans went into the Legislature in 1864 and had the present charter enacted. This charter is the foundation of the present prosperity of the city. By its provisions the owners of property were compelled to improve the streets; and the system for which the *Herald* coolly gives its party credit was thus inaugurated by the Republicans three years before the Democratic party came into power. Further, it is a well remembered fact that the Democrats, generally, opposed the new charter and the system of improvements which was inaugurated under it. The present editor of the *Herald* wrote and published in the Salem *Arena* several articles condemning the "despotic charter," as he called this instrument, and denouncing it as a "cut-throat tax law" the very enactment of which is built the system of improvements that he now praises so highly and gives his party so much credit for. Many prominent Democrats, as Holmes, Knott and White, refused to pay the taxes assessed against them under the new charter, and never paid them until compelled by the Courts to do so. The present system of improvements was therefore originated entirely by the Republicans, and in the face of the Democratic opposition. When Mr. Failing was Mayor he again [illegible] in his message "that the only [illegible] this evil of taxation for improving our streets, and it was by adroitly playing [illegible] this question and bringing in [illegible] that we believe that the [illegible] which had its adoption for [illegible] in the [illegible] was carried, so that the Democrats were able to get the city government into their hands. A similar outcry was also raised against the improvement of the Wallamet [illegible]. Though it is probably true that some money was spent in this enterprise without the best judgment, it is also true that great good was accomplished, and that we owe to this scheme which has been so greatly misrepresented by the Democracy, the almost unobstructed navigation which we have enjoyed during the last two or three years.

The fact therefore is that this system of improvements which the Democratic organ claims the credit for, was put into operation by the Republicans in spite of Democratic policy. The editor of the *Herald* denounced it at its commencement, and the party by [illegible] ting it used it as a hobby on which to ride into power.

The *Herald* also boasts that its party has been honest and economical, but does not state in what particular. We showed the other day that in almost every respect the affairs of the city are greater than they were two years ago. If a small retrenchment has been effected on any one point it has been much more than balanced by increased expenditure on others. The city government during the year 1868 cost more money than during any previous year of its existence. The public will see from these statements of undoubted facts that it was the Republicans who put the city government "in perfect running condition," and that the [illegible] that can be claimed for the Democrats is that they have continued with tolerable [illegible] the policy which the Republicans inaugurated.

War Among Brethren.

The Yamhill *Courier* continues to protest vigorously against the repudiation doctrines [illegible]d by the *Herald*. It says:

When brethren differ as to which is orthodox the articles of faith should be consulted. The *Herald* and *Courier* differ as widely as from west to east. Too the mark, penny, while we read the [illegible] of the school, we [illegible] by the dunce. We have spanked you and sent you home, but you [illegible] is coming, to the great damage of those who would be good. We would place you on the dunce block, but you are so vicious as to make [illegible] gracefully, and avoid being kicked out at the next directors' meeting.

The *Courier* then quotes from the platform adopted by the Democratic party in this State in 1866, which declares that the party does not intend to repudiate the debt. The *Herald* calls this a "diabolical trick," asserts that the platform quoted from does not now embody the principles of the party, and claims that the party will make a genuine repudiation platform next year. The Democratic party, according to the *Herald*, is "making rapid strides," and its platform of three years ago is not to be taken as the basis of its present faith. All this is calculated to rather weaken our faith in the "immutability of the time-honored principles of our party." If our recollection is not at fault, we have been told before now—perhaps it was the *Herald* that told us, that Democratic principles are unchanging and unchangeable.

The San Francisco *Bulletin* states that as a crowd of Chinese landed on the wharf at that city last week they "were attacked by a crowd of men and boys who would disgrace a tribe of Apache Indians. Stones, clubs, potatoes and mud were thrown at them. Many were knocked down, and when they were down the white miscreants daubed their faces with mud and pulled them around by the hair; being cheered on by the crowds lining the sidewalks." All this was in accordance with Senator Casserly's recent anti-Chinese speech; but the papers don't state whether the Senator joined the crowd in throwing stones and mud or not

Washington News

It is stated that ex-Minister Webb held an interview yesterday with Secretary Fish, on the Brazilian Government. He denounces the authorities there, and says they have no more respect for the United States than for Hayti. He thinks we ought to give them a good thrashing in consequence. It is understood that the President fully indorses the course pursued by Webb. It appears he followed the instructions given him by Seward. It is presumed that the Brazilian Government will make an apology to our Government on the arrival of Minister Blow—Webb's successor.

Gettysburg, June 25.—General Meade accepted the invitation to perform the ceremony of unveiling the monument of the 1st of July, with appropriate remarks. The Baltimore Union Singing Association will be in attendance.

Chinese Wanted in the South.

Memphis, June 23.—A convention of citizens of West Alabama, Mississippi and Arkansas is [illegible] to meet here on the 13th of July to take measures for the introduction of Chinese emigrants.

Southern Railroads.

Memphis, June 23.—The President of the Mississippi River road advertises for the grading of the same from Memphis to Covington. The indications are that the work will be pushed forward at an early day.

Miscellaneous.

Columbus, Ohio, June 23.—The Republican State Convention organized to-day. J. Eggleston was made temporary chairman and the usual committees appointed, when the Convention took a recess.

Springfield, Mass., June 23.—A prize fight yesterday, between King and Lawrence, was broken up by the police. Three hundred spectators, of whom one-third were women, witnessed the affair.

Boston, June 23.—The vote on the annexation of Dorchester to Boston was carried at both places. It takes effect on the first day of next year.

Frederick, N. B., June 22.—A farmer relates that twelve men, engaged in lumbering on Bish River, north part of Maine, were recently poisoned to death by drinking tea in which a lizard had been boiled.

Accounts from Tacha, Peru, represent that place as depopulated by yellow fever. At the town of Chiriqui there had been an earthquake, and small pox was fearfully raging there. A storm at Valparaiso damaged the Government buildings to the extent of one hundred thousand dollars. M. Valicent, representative of the Cuban Republic was much feted at Lima. Henry C. Bents is acting as Charge d'Affaire of the United States at Lima, during the absence of Mr Hovey.

OUR SAN FRANCISCO DISPATCH.

San Francisco, June 24.—An attempt was made yesterday afternoon by some land sharks to shanghai a German river man aboard the *Alice St. Miner*. He was forced in a boat at Vallejo street wharf, but jumped overboard and was rescued from drowning by Harbor Master housemen. Attempts were made by the land sharks to regain their man, but were unsuccessful. No arrests have been made. Capt. Kenret, of the Harbor Police, refused to have anything to do with the matter.

Patrick and Michael Welch, brothers, engaged in a quarrel over domestic affairs yesterday evening, during which the wife of Michael beat Patrick fearfully with a heavy fence picket, disfiguring and nearly killing him. Parties all arrested.

Margaret Singleton, a married woman, died suddenly last night on Beale street. She was badly beaten on Sunday last by some person unknown, and death was caused by the injuries received.

The body of an unknown man, badly mutilated, was found last night on the beach, near the Ocean Side House.

The Sacramento boat last night brought the House Committee of Ways and Means. To-day the party are making an examination of the fortifications and other points of interest around the bay under the escort of Collector Miller.

BY STATE TELEGRAPH

Fire at Albany.

Albany, June 24.—About midnight last night a fire broke out in the Bank Exchange, William Gird's, corner Second and Ferry streets, and immediately the whole building was in a blaze. The flames spread to the building of A. S. Mercer, adjoining, and thence to the engine house of No. 1's company. All were consumed with the contents. Gird did not even save his books. The livery stable of Wm. Cannon, opposite, on Second st., was in imminent peril, but by a great effort on the part of the firemen and citizens, was saved. Everything was very dry and water scarce. A good cistern full would have saved thousand dollars, and Mercer for twelve hundred, both in the North British.

BY ATLANTIC CABLE.

Florence, June 22.—Great precautions have been taken by the authorities of Naples, Turin and Milan to guard against an outbreak. It is feared that the revolutionists are inciting disturbance. Several arrests have been made at Genoa.

London, June 23.—A deputation of gentlemen representing the Lancashire cotton trade, have united in a request to the Duke of Argyle to obtain Government assistance for the production of cotton in the British colonies. They set forth a great depression in the trade, and show that relief can only be had by Government aid to develop the growing of cotton, and so compete with the United States.

Paris, June 23.—Advices from the *Great Eastern* are to Tuesday, noon. She was then 174 miles from Brest, paying out cable nicely. The weather was pleasant.

NEVADA.

Virginia City, June 24.—The weather continues cool and cloudy.

Our city presents rather a dull appearance, but mining, the great interest, is driven as energetically and as profitably as ever.

The stages to all points continue filled with passengers.

The small pox has quite disappeared from this city and Gold Hill.

The work of grading the Virginia and Truckee railroad is making rapid progress. It is nearly completed between Carson and Empire City and 20 per cent. of the balance. It will be completed this fall if the material arrives.

Treasure City, June 24.—The shipment of bullion by Wells, Fargo & Co. for the last six days, amounts to forty-one bars, valued at $57,401 33. Fourteen bars of this goes overland.

The city was visited by a severe thunder storm yesterday afternoon, accompanied by a light shower. A man named Chas. B Luthers, a native of Denmark, aged about 43, was instantly killed by lightning. His partner, Geo. Smith, was knocked down, whiskers and hair burned and boot sole ripped off, but not seriously injured.

In General.

A Democratic organ near us whines piteously because it don't get any more Government advertising. We can prove from leading editorials which appeared in that paper less than two months ago that patronage of this description "belongs to the party in power." The "organ" no doubt also has some doleful visions occasioned by the prospective loss of the city printing, by which it has been kept alive for the last two or three years.

Wendell Phillips has found another first-class grievance. He is shocked by the inhuman treatment of the Indians by our Government, and he urges them to tear up the rails of the Pacific railroad. "Every blow struck at the Pacific railroad," says Mr. Phillips, "is heard round the globe. Haunt that road," is his advice to the Indians, "with such dangers that none will dare to travel it." He sees "great good" in the fact that the Indians have begun to tear up the rails, to shoot passengers and conductors on the road. Phillips once used a phrase which will serve well in this case to describe himself. He is "dealing with an ideal Indian."

The Democratic organ here which has received for Government advertising during the last three years three times as much money as all persons connected with it have paid in for Federal taxes, is grumbling because the taxes are due again. It says "About $150,000 will be taken out of the State at this one swoop." Yes; and to offset it about $1,000,000 will be expended in the State this year by the Government. The sum of $100,000 is now being expended on the Dalles Mint; $100,000 on the Court House in this city; $75,000 on the Custom House at Astoria; $40,000 for the survey of the public lands, and an untold amount for the Indian service and the support of the army. Are we, who thus enjoy the bounty of the Government, to complain because that Government, when it gives us three dollars, requires us to give one dollar back? Does it look well for a paper which has got three dollars out of the Government for every dollar it has paid in, to complain of "the tyranny of Federal taxation?" This same paper says also that "it is about time this invention of the Radical party was dispensed with." It is a wise organ that would dispense with our mails, our public buildings and our military defences, for the sake of dispensing with the comparatively small tax levied here by the Government.

The Indians at Neah Bay.

Editor Oregonian:

Recent advices state that Col. Ross, formerly commander of the Military post at Fort Steilacoom, W. T., has been appointed Superintendent of Indian affairs for Washington Territory, and that all the Indian agents have been superceded by army officers.

Among the agents to be relieved there is no one whose removal will be more regretted than Agent Henry A. Webster, the very efficient officer who, for the past eight years has had charge of the Reservation at Neah Bay, for the Makah Indians. This tribe, who reside at Cape Flattery, and considered, prior to the appointment of Mr. Webster, as the most fierce and hostile tribe west of the Cascades, have by his management been reduced to a degree of order and discipline that reflects great credit upon his exertions.

The energy and zeal displayed by Agent Webster in carrying out the provisions of the treaty, are spoken of in the highest terms of praise by every person who knew these Indians ten years since, and have visited the Reservation during his administration. Mr. Webster will retire from his office with the satisfaction of knowing that every unprejudiced man in the community who has visited Neah Bay and is conversant with the operations of that agency, will fully endorse him as a faithful and an efficient officer who has conscientiously discharged his duty to the Government and the Indians under his charge. S.

Portland, June 21st, 1869.

An English gentleman on a tour through this country thought Americans were fellows of the other country because he saw one of them picking his teeth with a lucifer match.

MARRIED.

At the residence of Mrs Coburn, the bride's sister, in Canemah, June 23, 1869, by Rev C W Todd, Mr James M. Kelty to Miss Sarah M Scott, both of Lafayette, Yamhill Co.

DIED:

At Cottage Farm, Benton county, June 8th, of consumption, Mrs Amelene, beloved wife of W J Johnson, and daughter of E. Hartless, aged 19 years, 4 months, 23 days.

In Dallas, Polk county, Oregon, June 12th, 1869, at 6½ o'clock P. M., Ezekiel Kennedy, consort of Fanny Thurston his wife, in the 80th year of his age. Iowa and Missouri papers please copy.

Father Kennedy—"Grandpa" as the children affectionately called him—after a protracted illness of bodily infirmity and old age, fell asleep in the triumphs of the Christian faith, after living an exemplary member of the church for nearly forty years. He was born in Mercer county, Kentucky, in the month of December, 1789. In an early day he moved to Frankfort, where he built the State House for the Capital. About the year 1817, while he had this house under contract, he was married, near Shelbyville, Ky., to Ezekiel Thurston's daughter Fanny, now his infirm and bereft widow. In the year 1834, he emigrated to Shelby Co., Mo. In 1846, he left Independence, Mo., to cross the plains in company with Lilburn W. Boggs, ex-Governor of the State, and after wading through perils and privations for nearly six months he camped on a little creek, near where Oakland now stands, in the Umpqua Valley; having been bereft of all, save the canopy of heaven for a covering, and having had the last yoke of cattle filched from him he was forced to remain in a perilous and almost starving condition until spring opened, he then moved to Yamhill county, where he was elected County Treasurer, and filled the office with honor to himself and county. Here he remained for some time surrounded by a large circle of warm and true hearted friends. He finally moved to Polk, the adjoining county, where he died, true to his principles—*the first to do a favor and the last to deny one.* One of Oregon's oldest and most influential pioneers has gone to rest, beloved and lamented. He leaves an aged an afflicted wife and four children to mourn his death; but "Blessed are the dead that die in the Lord, for their works do follow them."
